Subject: RE: Springpole Gold Project - Participation in Socio-economic Study

Hi Jeff,

I am following up on our email request to participate in the Socio-Economic Study for First Mining Gold's Springpole Gold Project environmental assessment. We are seeking information regarding existing infrastructure and resources in the Township of Ear Falls and would like to validate the information we gathered in our desktop research.

Please advise if you are available to participate in our Study and to discuss further. I anticipate that the discussion will be approximately 30 to 45 mins.

Kind regards,

Marian Tibor-McMahon, B.A.

Subject: RE: Springpole Gold Project - Participation in Socio-economic Study

Hello Jeff,

I am following up on an email sent by Meghan Bertenshaw from First Mining Gold last week.

Wood is conducting a Socio-Economic Study for First Mining Gold as part of the Springpole Gold Project environmental assessment. A key component of the environmental assessment process is to collect information to help us understand the current social and economic conditions.

We are seeking information regarding existing infrastructure and resources in the Township of Ear Falls including parks, playgrounds and recreational facilities / programs.

If you are available to participate in our Study, we would be more than happy to arrange a virtual meeting or call to discuss further.

I look forward to hearing from you.

Best regards,

Marian Tibor-McMahon, B.A.

CAUTION: External email. Please do not click on links/attachments unless you know the content is genuine and safe.

Good Afternoon,

On behalf of Steve Lines, please find attached a letter to invite your participation in a socio-economic study being completed by Wood Environment and Infrastructure, on behalf of First Mining Gold, as part of the Springpole Gold Project environmental assessment. A key component to the environmental assessment process is to collect information to help us understand the current social and economic conditions.

Marian Tibor-McMahon from Wood's Human Environment Team, who is cc'd here, will be following up with you to provide further information on this process, and can answer any questions you may have. She will be looking to schedule a phone call or virtual meeting with you if possible and will be in touch regarding this.

Further details are provided in the attached letter. Please let us know if you have any questions or concerns.

Best Regards,

Meghan Bertenshaw
